Re: Explanation of the difference in profit after corporate income tax before and after audit review on the 2025 Semi-annual Consolidated Financial Statements.

Hanoi, August 29, 2025

Dear:

- State Securities Commission;
- Hanoi Stock Exchange.

Cienco4 Group Joint Stock Company (Stock *code C4G*) would like to send our best regards to the State Securities Commission and Hanoi Stock Exchange!

Based on the Business Performance Report on the 2025 Semi-Annual Consolidated Financial Statements before and after audit review, the Company would like to explain specifically as follows:

STT	Content of the index	Pre-audit figures	Audited figures	Difference before and after audit	Proportion
1	Current Corporate Income Tax Expense	12,759,507,944	10,266,057,806	(2,493,450,138)	(19.5%)
2	Profit after tax Corporate income	23,176,910,326	25,059,976,474	1,883,066,149	8.1%

According to the figures in the consolidated financial statements, the current corporate income tax expense on the consolidated financial statements after the audit is lower than on the consolidated financial statements before the audit. Therefore, the profit after corporate income tax on the consolidated financial statements for the 2025 semi-annual year after the audit is higher than the profit after corporate income tax on the consolidated financial statements for the 2025 semi-annual year before the audit by more than VND 1.88 billion as presented above.

The above is the explanation related to the difference in profit after Corporate Income Tax before and after audit review on the Company's 2025 semi-annual consolidated financial statements sent to the State Securities Commission and Hanoi Stock Exchange.

Respectfully report!

Recipient:

- As above;
